

10/02/2026

Dear Argonon Token Holder,

We are writing to offer you a choice on how your **ARG tokens** are stored and managed. If you already hold your tokens privately (not on ARG platform) then no action is required.

What's happening

Argonon will be upgrading its systems designed to enhance security and provide you with greater flexibility over your token holdings. In this process, you will have additional options.

Your options

You have two choices for your ARG tokens:

1. **Transfer to a Personal Wallet** - If you have your own cryptocurrency wallet and would like full control of your tokens (Many reputable and secure crypto wallets are available, and you may wish to set one up for the purpose of taking custody of your tokens).
2. **Keep with Argonon** - Allow us to continue holding your tokens in our new secure centralised wallet system (on your behalf).

Action required

If you wish to migrate all your tokens to your personal wallet, please reply to this email within 7 days (**by 17/02/2026**) with your wallet details, including:

- Your wallet address
- Wallet type (e.g., MetaMask, Trust Wallet, hardware wallet)
- Your current token balance for verification
- Confirmation that your wallet is set up on the BSC network (failure to ensure this can lead to permanent loss of tokens in the transaction)
- Confirmation that you have added the ARG token to your wallet (if you have a Meta Mask wallet see instructions here: <https://support.metamask.io/manage-crypto/portfolio/how-to-import-a-token-in-metamask-portfolio> you will need to import the ARG token as a custom token with the token contract address being: 0x701d9A068d1EeC64fbC10299B9f1B18Fbb355DDB for other wallets please refer to their support documentation for guidance.)
- Proof of purchase

Transfers will be completed within 5 working days from receipt of a valid withdrawal request, subject to relevant approval processes.

Liability

Token transfers are publicly verifiable on the relevant blockchain, allowing any party to independently confirm that a transfer has been successfully sent. Once a transfer has been sent to the wallet address provided, responsibility for the receipt and custody of the tokens rests with the investor. Argonon cannot accept liability for tokens that do not appear in the recipient's wallet due to incorrect wallet details, wallet configuration or provider issues, network conditions, or other factors outside Argonon's control.

To mitigate risk, a small test transfer will be completed in advance to confirm that tokens are received as expected before any larger transfer is made. The completion of a test transfer does not constitute a warranty or guarantee of receipt of any subsequent transfers, nor does it alter the allocation of responsibility or liability between the parties.

Need Your Balance Information?

If your tokens are currently held with Argonon, you can request your current balance and unique contract numbers at any time by emailing intouch@argonon-he.com. We maintain complete records and can provide this information upon request.

Please note:

- We can only provide balance information for tokens held with Argonon.
- If your tokens have already been transferred to a personal wallet, you will need to check your balance directly through your wallet or a blockchain explorer.

If you take no action or fail to respond within the specific period

Your tokens will be automatically migrated to Argonon's new centralised wallet system, where they will remain in Argonon custody. This doesn't affect the value or status of the tokens in any way and requires no action on your part.

Important reassurances

- Your ARG tokens remain 100% valid and valuable regardless of which option you choose.
- This is being done to improve security and accessibility.
- All tokens are backed by the same helium reserves from Renergen, as per your contracts.
- No fees will be charged for this migration process.
- Your investment value and token rights remain unchanged.

Timeline

- **Next 7 days:** Submit wallet details if you want personal wallet migration.
- **After 7 days:** Migration process begins based on your response (or lack thereof).
- **Migration completion:** All holders will be notified once the process is complete.

Questions or concerns

Our team is available to answer any questions you may have about this migration. Please don't hesitate to reach out if you need clarification or assistance.

This migration demonstrates our commitment to providing secure, flexible token management while maintaining the integrity and value of your ARG token investment.

Thank you for your continued trust in Argonon.

Yours sincerely

Nic Charrington
Argonon
